25X1A 1. Comment. The present report contains information covering different areas in East Germany.

25X1X The shipments across the border were reparations and export deliveries.

25X1 Only the shipments dispatched to Velten are for the Soviet Occupation Forces in East Germany. Two large central fuel depots, one of the GOFG and the other of the

25X1 Twenty-Fourth Air Army, are located and are served by the hydrogenation plants in Grosskorbetha and Boehlen respectively.
